# Trampoline Activities

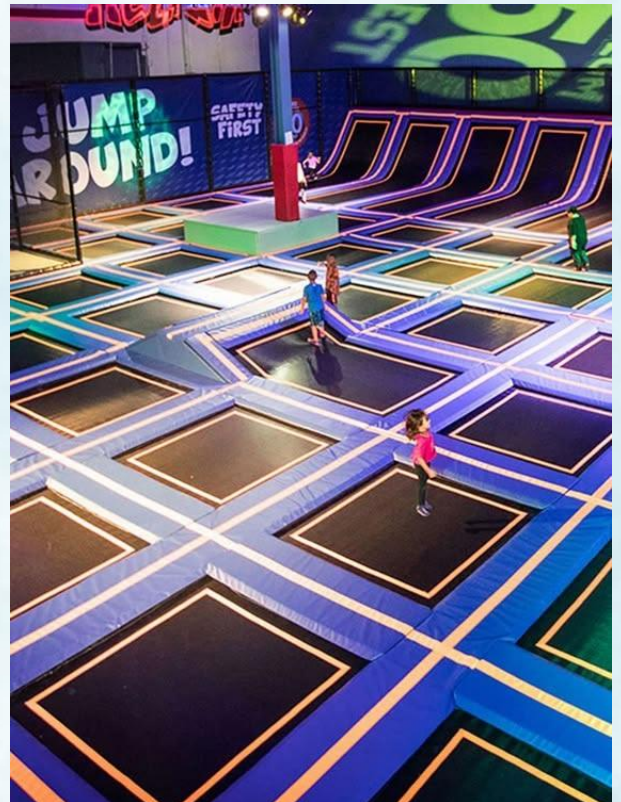

# Trampoline Free Jump Area

1.

**Description** :- This free jumping area is must have play area for all trampoline parks, jumping on trampoline itself is enjoyable sport, our body rebound back to the air by push our weight and strength to the jumping bed. We fly much higher than can perform on ground, our body feel so light, while we can learn how to control our body and foothold, we do lot of sports without much feel of tired.

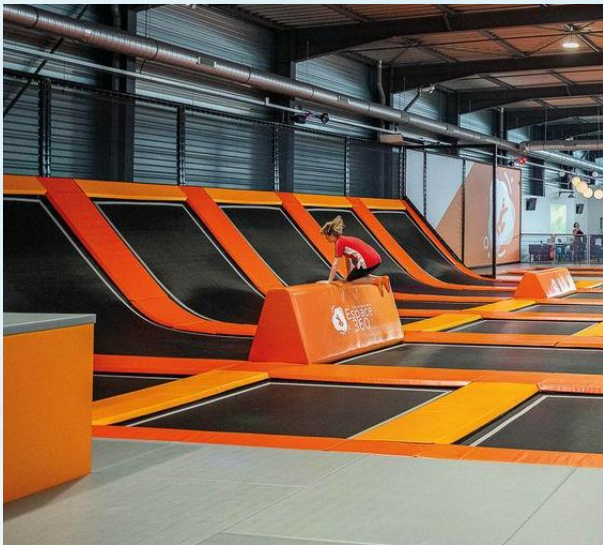

## Inclined Trampoline

2.

**Description :-** Inclined fields are installed vertically on the horizontal fields at an oblique angle. They allow users to jump off the sides of the arena.

## Wipe Out Trampoline

3.

**Description :-** A 4 player action game that challenges your stamina and agility as a giant spinning sweeper arm attempts to knock players head over heels. Who will be the last one standing? Leap your way to victory in this fantastic game that guarantees endless fun.

# Dodge Ball

4.

**Description :-** Entre the dodge ball courts- the ultimate trampoline colosseum where primal battle instincts rise to the fore in fun and often funny ways .two teams throw soft “bowling ball” sized dodgeballs at each other as they jump around the court.

## Dunk Zone

5.

**Description :-** The dunk zone consists of a trampoline cover facing a wall with a basket ball hoop attached . The height of the basket can be chosen of at the design stage to provide more or less difficulty for players.

## Foam Pit

6.

**Description :-** The foam pit is constructed of a steel construction between which a jumping field is stretched at a height of 70 centimeters. The rest of the space, about 1 meter, is filled with foam blocks. The foam pit cubes ensure a soft landing when the jumper is practicing his tricks.

# Ninja Warrior Course

7.

**Description :-** This is a fun activity that allows participants to train , compete and have fun in a safe environment while testing their upper body strength. jump provides a kids and adults course offering a variety of obstacles with different level of difficulty , so it is suitable for beginners and the more serious.

## Air Bag

8.

**Description :-** The air bag is composed of various air filled tubes that provide cushioning for a player over a defined area. A large air bag can thus cushion the fall of several players at the same time , without one or the other being ejected.

The fabric constituting the air bag benefits from a virucidal and bacterial treatment.

# Spider Tower

9.

**Description :-** Spider drop tower is a new attraction in trampoline park . It features a tower structure with several layers of elastic bands, and the bottom layer is made of trampoline mat. The player gets ready at the platform with back against the elastic bands and hands crossed behind the neck , then fall freely down the structure.

# Gymnastics Trampoline with wall walk

10.

**Description :-** Wall walking is possible on Olympic grade professional gymnastics trampoline at sky jumper trampoline park. Wall walks – sky jumper trampoline park.

## Stairway activity

11.

**Description :-** Stair climbing increases leg power and may be an important priority in reducing the risk of injury from falls in the elderly. Stair climbing can help you achieve and maintain a healthy body weight. Stair climbing can help you build and maintain healthy bones, muscles and joints.

## Bull Ride on

12.

**Description :-** Our popular mechanical bull ride spins, lurches, jumps, and deals out plenty of unexpected twists and turns like a genuine bodacious rodeo star.

## Donut Slide

13.

**Description :-** Experience a lot of fun, get to the top, sit in a comfortable donut-like tube and slide down at dizzying speed! It is not only great fun for the youngest but also for adults. The tube moves along a special track with speed limiters, which ensure complete safety and speed adjusted to the circumstances.

# Wall Climbing

14.

**Description :-** A climbing wall is an artificially constructed wall with grips for hands and feet, usually used for indoor climbing, but sometimes located outdoors.

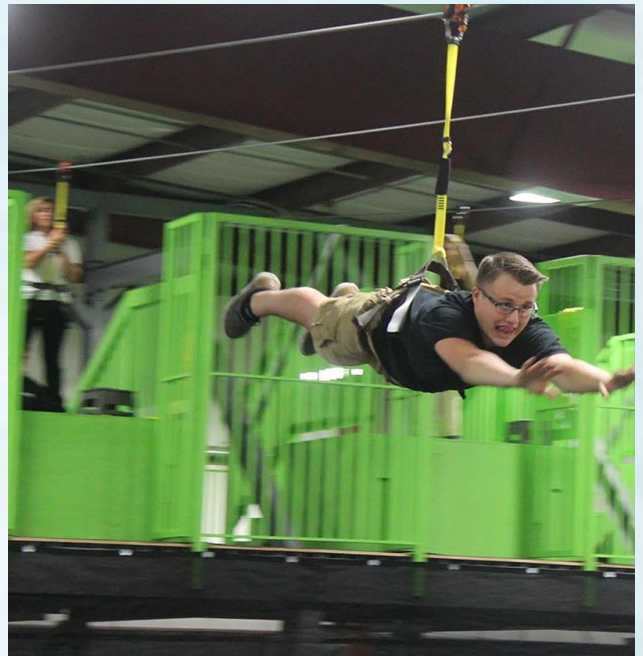

## Zip Line

15.

**Description :-** A zip line, zip line ,zip-wire, flying fox ,or death slide is a pulley suspended on a cable, usually made of stainless steel, mounted on a slope.

## Trapeze Jump

16.

(Jump with monkey ladder)

**Description :-** if you've ever admired acrobats' trapeze skills, trampolines are your opportunity to display them a trapeze is a small bar suspended from two ropes at a give height. Swing in the sky over the cushioned airbag while holding the trapeze using your hands.

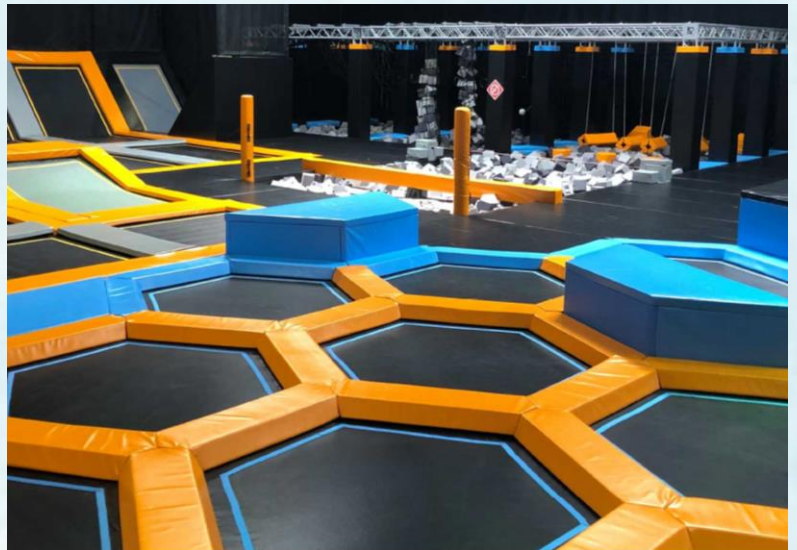

# Hexagonal Trampolines

17.

**Description** :- Hexagonal are next – generation trampoline parks. Hexagonal trampolines provide 15% more jumping capacity & an exclusive user experience.

## Slack line

18.

**Description :-** Slacklining refers to the act of walking, running or balancing along a suspended length of flat webbing that is tensioned between two anchors. Slacklining is similar to slack rope walking and tightrope walking. Slacklines differ from tightwires and tightropes in the type of material used and the amount of tension applied during use. Slacklines are tensioned significantly less than tightropes or tightwires in order to create a dynamic line which will stretch and bounce like a long and narrow trampoline

## Rope course

19.

**Description :-** Constructed with premium American made steel, our Ropes Course attraction offers both an Indoor Ropes Course and a ground level Ninja Course in one foot-print.

## Pit fall activity

20.

**Description :-** The Foam pit is constructed of a steel construction between which a jumping field is stretched at a height of 70 centimeters. The rest of the space, about 1 meter, is filled with foam blocks. The foam pit cubes ensure a soft landing when the jumper is practicing his tricks.

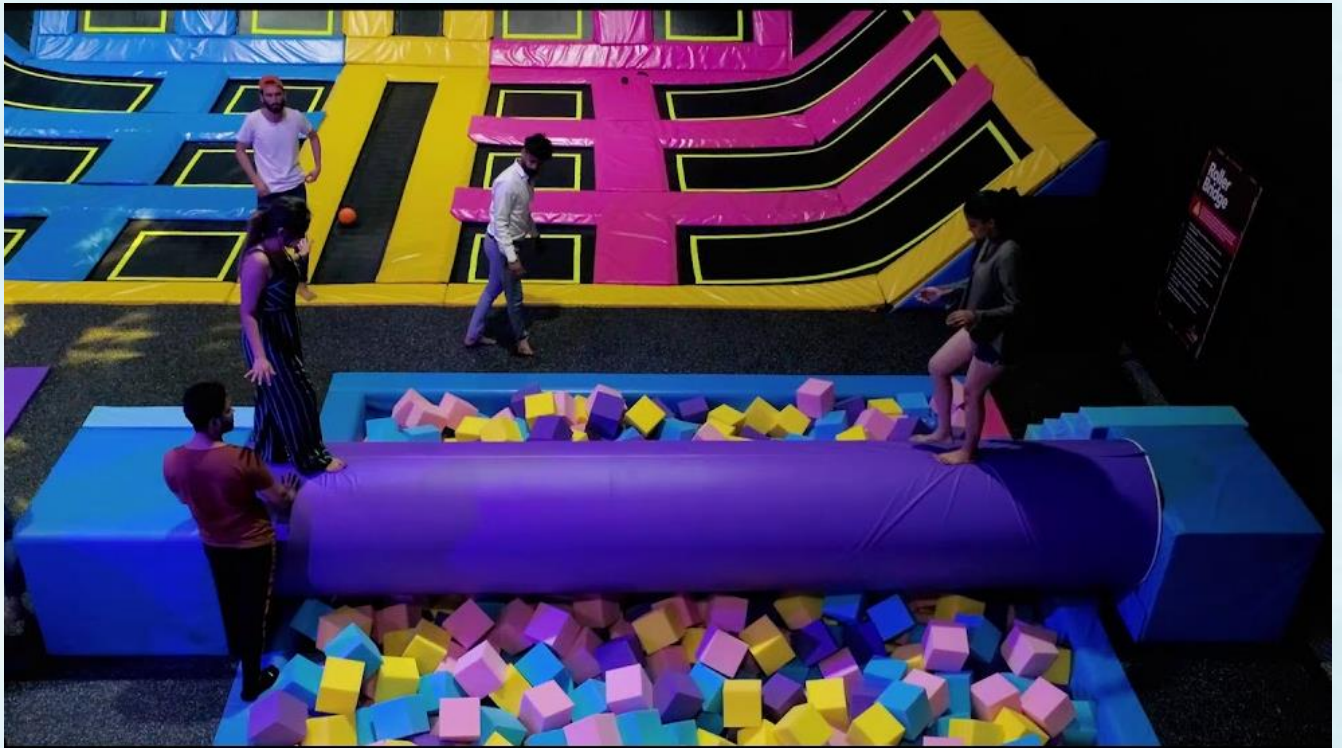

## Balance roller

21.

**Description :-** Roller skating is the act of traveling on surfaces with roller skates. It is a recreational activity, a sport, and a form of transportation.

## Suspension bridge walkway

22.

**Description** :- Temporary suspended walkways, called catwalks, are then erected using a set of guide wires hoisted into place via winches positioned atop the towers.

## Down inclined trampoline

23.

**Description :-** An inclined plane, also known as a ramp, is a that supporting surface tilted at an angle from the vertical direction, with one end higher than the other, used as an aid for raising or lowering a load.

## Air bouncy

24.

**Description** :- Inflatable castles (also called bounce houses, bouncing houses, jumpy house, bouncing castles, bouncy houses, bounce houses, jumping castles, jumpers, bouncy castles, moon bounces, or moonwalks) are temporary inflatable structures and buildings and similar items that are rented for backyard and block party functions, school and church, festivals and village fetes and used for recreational purposes, particularly for children, but have been found recently being used for teens and adult parties.

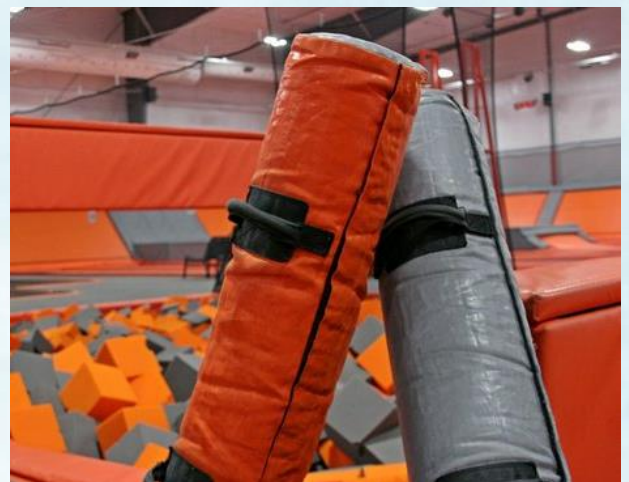

# Battle Beam

25.

**Description :-** Battle Beam is a soft beam suspended over an air cushion or a foam pit, but it may also be placed on the ground among soft mats. The attraction is to knock the opponent out and keep balance.

# Zorb Ball

26.

**Description :-** Zorbing is performed using a double-walled plastic ball.

You have to get into a giant, translucent inflatable ball. So the person within gets the sensation of speed and the rush of bouncing about. Zorb balls may be thrown around like a beach ball, or you can walk around inside of certain of them.
